NEWS OF THE WORLD EPITOMIZED

Important Happenings of the Week Briefly Told.

TELEGRAMS FROM ALL SECTIONS.

Short, Pithy Paragraphs That Give the Cream of the Week's Events in a Form Appreciated by Busy Readers

An order was published at Havana, Cuba, placing a duty of \$2 a head on cattle imported for other than breeding purposes.

An early frost on top of a wet summer has so seriously damaged the crops throughout Norway that the authorities are preparing to assist the farmers with seed.

The Macien, Taal and Balusan volcanoes, in the Philippines, are unusually active. The Balusan volcano had been inactive for years. The people residing near the Macien volcano are alarmed. No seismic disturbances have resulted.

Repeated violent earthquake shocks occurred throughout the entire eastern portion of Turkestan from August 26th to September 3d. Numerous houses were destroyed in Kashgar and in neighboring villages, and a number of fatalities have been reported.

The suffering in New South Wales attendant upon the recent droughts has resulted in the passage through both houses of Parliament of a bill appropriating \$1,000,000 a year for five years, to be expended in the conservation of water and the irrigation of the country districts.

A cable to the New York Sun from Berlin says: A dispatch from Shanghai to the Frankfort Gazette says it is declared in Mandarin circles that another plot to depose the Emperor is brewing. The instigator is Yung Lu, First Grand Secretary, who intends to place on the throne a Prince who is betrothed to a his niece.

The construction of a new battery at the eastern extremity of Kingston Jamaica, harbor, has begun. It is to have an armament of six-inch quick-firing guns, and is intended for defense of the eastern channel. This new battery forms a part of the general scheme for strengthening the British naval station at Port Royal in anticipation of the opening of the Panama canal. Another battery is to be constructed on Palisades and spit.

A cable to the New York Sun from London says: A dispatch from Johannesburg says that Mr. Rathbone, former Government Inspector of the Rand mines, has returned from a geological survey of the southern fringe of the great Witwatersrand basin. He established the existence of the main reef series through twenty miles which is favorably situated for working. The dispatch adds that should the reports prove true, it means another Rand with the existence of all deep levels geologically proved.

Partly decayed meat, which had been treated chemically to hide its condition, as well as sausages containing potato flour, unhealthy kidneys ground up and other adulterations, were sold in St. Louis and other large cities of the country between August 21, 1899, and May 2, 1902, by the packers' trust, according to testimony given by Thomas O'Sullivan, meat and live stock inspector of St. Louis. O'Sullivan was the first witness called by Attorney-General Crow when the taking of testimony was resumed by Commissioner Keane in the beef trust inquiry.

American self-binders, manufactured in Chicago, and drawn by American horses, are harvesting the crops on the Hohenzollern crown farm in the outskirts of Berlin. A complete outfit of these machines was recently purchased. This innovation may be followed by the reorganization on American lines of the entire royal estate, which is the personal property of the Hohenzollern family, and is operated for its financial benefit. The same Chicago company has also sold an extensive equipment of binders and mowers to the Brandenburg farm of Baron von Arnim Crieven, one of the greatest landowners of Germany and a leading member of the anti-American agrarian party.

Meyer Jonasson & Co. of New York, one of the largest and best-known cloak houses in the world, has failed, owing \$800,000. The assets are said to be \$500,000. Emanuel W. Bloomington was appointed receiver and gave a \$250,000 bond. The fact that the firm is in financial difficulties will come as a surprise to the trade, because it has been generally supposed that the senior member of the firm was many times a millionaire, and that his firm was doing a large and

profitable business. The cause of the firm's downfall dates from the day it became a retailer of cloaks and suits, as well as a manufacturer.

Laboring men in Chicago, dissatisfied with the strikes that are of almost daily occurrence, will form a Trades Union Co-operative and Protective Association, the purpose of which is to fight capital with capital. The plan as given out is to raise a fund of \$2,000,000 in Chicago to be used in any business that is in competition with a concern that is on organized labor's "disfavor" list. Only members of trades unions can become members of the association. Certificates will be sold for \$10 each. The number of certificates each member holds will not control his vote in the corporation. Each holder of certificates will be entitled to only one vote.

A cable to the New York Sun from London says: The body of Master Gosse, the nineteen-year-old son of a clergyman at Wincanton, Somersetshire, England, dressed in his father's cassock, on which hung a wooden cross, was found hanging in his bedroom. On the table the prayer-book was open at the burial service. In the letter which he left the youth said: "This is not self-murder. If thine eye offend thee, pluck it out. If thy life offend thee, give it back to Him who gave it to thee. I ask that this cross be put on my breast in my grave. Bury me in this holy robe." The young man had been reading Maria Corelli's "Mighty Atom," and his death was an imitation of the principal scene in the book. This case is the second one of imitative suicide caused by reading the book.

United States Minister Conger has presented to the Chinese Foreign Office a letter from Dr. Canright, the American missionary of Cheng Tu Fu, describing the massacre of native Christians there in July. Dr. Canright says that eleven converts were killed by Boxers and that the local officials refuse to take measures against the Boxers. The letter was written August 2d. The missionaries were then guarded by troops and were unable to leave the mission buildings, except when escorted by soldiers. Dr. Canright's recent telegrams say the situation is worse. The native papers declare the trouble is due to the collection of excessive indemnities for Christians on account of the troubles of 1900 and owing to the Christians' arrogant attitude under foreign protection.

Laying the Pacific Cable.
Victoria, B. C.—The cable steamer Colonia has landed the end of the Pacific cable at Bamfield creek and has started on her trip to Fanning Island, unspooling the cable as she proceeds.

LUMBER FOR USE IN PHILIPPINES

Government to Contract for a Big Shipment From the North.

Tacoma, Wash.—Major Bingham, Quartermaster, asked for bids on one of the most important contracts let this year by the War Department. The bids will provide for the delivery to the department at Tacoma, Seattle or Portland of 3,284,000 feet of rough lumber, 1,716,000 feet of dressed lumber of various dimensions, and 2393 cedar doors. The magnitude of the contract can be estimated when the statement made by Major Bingham is repeated, that it would require four trips of the great transport Dix, loaded to the limit, to deliver the lumber at its destination in the Philippines.

The department desires the lumber for use in construction work in Manila. Huge buildings of every character usually required in barracks are to be constructed there as soon after the delivery as possible. The construction of the barracks will cost the department many hundreds of thousands of dollars, but the chief item of expense will be the lumber, and the money to be paid for this will be disbursed among the Puget sound lumbermen.

Bids will be opened September 23th, and delivery on wharves or lighters alongside of ships at Tacoma, Seattle or Portland is specified. The Quartermaster stipulates that the lumber must be of the best quality, equal to that of the finest Washington or Oregon fir.

Exploding Engine Kills Two Men. 1 Los Angeles.—Too much pressure in the boiler caused a locomotive drawing a heavy freight train to blow up between Ravenna and Action on the Southern Pacific. The body of the engineer was projected forward nearly 100 feet upon the track. Harry R. Swan, fireman, was instantly killed and Engineer William E. Love was so terribly injured that he died two hours after the accident occurred. Both men lived in this city.

Rain Ends Forest Fires.
Encampment, Wyo.—Heavy rain has extinguished the forest fires in Southern Wyoming and Northern Colorado.

SUB-TREASURY SYSTEM MAY BE ABOLISHED

Proposition to Make National Banks Government Depositories.

WILL BE SUBMITTED TO CONGRESS.

Object Is to Allow Circulation of National Money, but Experts Differ Concerning Its Feasibility.

Washington, D. C.—By the time Congress meets in December there will be developed an entirely new financial policy which will have the sanction of the Administration. It involves nothing more nor less than the abolition of the entire Sub-Treasury system and the substitution of the national banks as Government depositories, with discretion vested in the Secretary of the Treasury to determine the kind of securities to be accepted, thus eliminating the Government bond as the only possible basis for cash loans from the Government. Abolition of all the Sub-Treasury system, which locks up the Government money almost as soon as it is received, seems to be the only relief.

Such a policy has not only been actually under consideration, but has been adopted and accepted to such an extent that it may be announced as a policy which will at least be submitted to Congress by the Administration, if it is not actually adopted as the only means of putting the Government once more in touch with the strongest business interests of the country.

Coupled with the proposition to abolish the Sub-Treasuries and substitute the Government banks as depositories of Government funds, will be a proposition to permit the Secretary of the Treasury, within reasonable limits, to become the judge as to the securities to be deposited with the Government prior to securing loans.

The result of this, of course, will be a complete transfer to the national and state bonds of an approved character, to say nothing of the possibility of making use of their own general assets or even of high-grade commercial paper.

Under the new financial policy to be submitted to Congress, as outlined above, there is no doubt that it would permit of the active use of the present funds idle in the Treasury. It would permit the Government in effect to deposit all its available cash balance in the banks exactly as any other business concern would do, reserving only a small amount, comparatively speaking, for the daily needs of the Government.

The difference between the Government deposits in the banks and those of a private corporation would be that the Government would be constantly secured by holding the best assets of the bank for its own indemnification, so that if the Secretary of the Treasury did his duty properly the Government would be secured against loss.

Huge Wild Man in Hills Near Blue Tent.
Marysville.—A wild man of giant stature is roaming over the mountainous regions about Blue Tent, frightening the few inhabitants of the section. He wears no clothing, but carries a gun. This probably explains why so many carcasses of bears and deer have been found lying about, each showing signs of having been more or less cut into, evidently for food. The man's resting-place is thought to be a cave difficult of access and never entered by others, so far as is known, because of the great number of rattlesnakes that infest it.

Fugitive Murderer Killed by a Posse.
Bancroft, Neb.—Peter Olsen, who shot and killed his sweetheart, Mary Peterson, in Omaha, on September 8th, was killed in a fight with a posse three miles north of this place. The members of the posse were on horseback and overtook Olsen three miles north of town. A constable ordered him to surrender. He paid no attention, and on a second command from the officer drew a revolver and fired at him. A general fusillade followed, and Olsen fell at the first volley.

Plan to Send Krueger to South Africa.
New York.—A cable to the Sun from Amsterdam says: There is a movement among Krueger's friends to send him to South Africa. Krueger's family approves the plan. Krueger has given notice that he will vacate his residence in November, but he has not determined whether he will accompany the Boer generals home, if he is allowed to go back. The generals will sound the British authorities on this point during their coming visit to England.

Borrow less than you lend and lend little lest you lose your friends.

CZARINA VICTIM OF AN INTRIGUE.

Nicholas May Attempt to Divorce His German Wife.

St. Petersburg.—The Czarina's position is growing extremely precarious at court, for although divorce is forbidden by the orthodox Greek church there is a strong feeling, shared by peasants and aristocrats alike, that some means should be found by the holy synod to set her aside for a wife who is likely to bear the Czar an heir to the throne. Pobiedonostzoff, procurator of the holy synod, who through the agency of his popes has already undermined the Czarina's position with the masses because he believes her adoption of the orthodox faith insincere, is suspected of fomenting this agitation for a divorce.

The ostensible ground suggested is that the Czarina has never conscientiously conformed to the orthodox religion, and therefore she never has been legally the Czar's wife.

The Czarina's misfortunes, instead of winning her sympathy, have intensified the distrust and dislike with which, as a German, she has always been regarded. Her children, who are extremely winning and attractive girls, are not only not greeted but are actually scowled and cursed at as they drive through the streets.

The effect of this terrible strain on the Czarina's mind, inclined as it already is to hysteria, may be serious. It is said that but for the comfort and sympathy extended by the Grand Duchess Serge she would already have broken down. The Czar is attached to her still, but his chagrin at his recent disappointment is unceasing and his anxiety to have an heir is overmastering, so Pobiedonostzoff's intrigue may prove successful.

Floating Bottle Found After Many Years.

Brookton, Mass.—George T. Maddox of this city was a member of the crew of the vessel Hattie Tapley, twenty-eight years ago, and on April 13, 1874, was one of the men who placed a note in a bottle bearing this inscription: "This bottle was thrown overboard from the ship Hattie Tapley of Bangor, Captain George Tapley, master, April 13, 1874, in latitude 27 deg. south, longitude 68 deg. east."

This was in the Indian ocean. The bottle was picked up recently off Monomoy point, Cape Cod. It was intact, and the message could easily be read. Maddox recalls the voyage on which he was when the bottle was thrown overboard. He thinks the trade wind helped the bottle around Cape Horn to the Atlantic ocean, the southwest trade wind again helping it northward. Gulf stream and coast currents brought it the rest of the way.

BRADSTREET'S WEEKLY TRADE REVIEW

Improvement in Retail Trade—Woolen Mills in Active Operation.

New York.—Bradstreet's says: Jobbing distribution continues active and retail business is improving. Now that the corn crop is practically made and the only possible changes are those of quality, the disposition to book fall and winter orders is unrestricted at the West and Northwest. At the South the tone of trade report is generally cheerful, largely owing to cotton. The consensus of reports as to money conditions points to good supplies of the circulating medium in the country at large. Whatever stringency is noted, that is usual, is limited largely to the employment of money in speculation. The claim is made that plenty of money in the interior and indeed at all centers for ordinary purposes is available.

The selling position seems to be the strongest side of the price situation, except possibly in the cereals and agricultural products generally. Even here the fine financial position of farmers enables them to market their products slowly, and no accumulation of moment is recorded except in cattle receipts, which this week surpasses all records. Notable strength is exhibited in manufactured goods. Woolen goods advanced slightly and the mills are actively employed. The delay in the settlement of the strike throws increased pressure on the bituminous product and prices for that product are now at least one-quarter higher than at any point since the strike.

Hides have eased in price. Lumber is active and the strength of prices is notable. Business failures in the United States for the week ending September 18 number 182, as against 197 last week.

Americans Go to Canada.
New York.—A revision of the figures on immigration into Canada for the fiscal year ended June 30th shows, says the Times, that the total is about 70,000, of whom 22,000 came from the American to the Canadian Northwest has assumed much greater proportions this year than ever before.

To Introduce Celery Nerve and Blood Tonic

We will sell for a limited time regular \$1 bottle for 50 cents.

Shoult's Pharmacy.

LOCAL BREVITIES and SHORT PARAGRAPHS.

DOINGS OF SONOMA AND VICINITY.

Happenings of Local Interest
Gathered from Various Sources,
Briefly Told.

Julius Poppe Jr. came home Saturday evening and enjoyed Sunday with his many Sonoma friends.

Saturday a bright little girl was born to Mr. and Mrs. Ed. Harris at the home of her mother Mrs. J. S. Young.

Benj. Searcy, in company with his mother, were over from Yountville Sunday guests of the Cuberson home.

Rea Hunter and Chester Trudgen returned from San Francisco Tuesday evening where they spent a three days' sojourn.

It is reported Mrs. G. I. Arthur has sold her place and will leave in a few days for San Francisco to remain permanently.

C. O. Dunbar, Democratic candidate for assemblyman for this district, was in town Saturday interviewing his many friends.

Guy Weems, who has been working for the Bonestell Paper company of San Francisco, for some time past, is home on a few weeks' vacation.

Prof. Hugh G. Maxwell of San Francisco Monday looking after his property interests here. He has made arrangements to have some needed improvements made at the old home place.

Wm. Hellberg and H. Rabke have a contract for hauling 130 puncheons of wine from the Hearst ranch to the boat landing and 80 puncheons from the landing to the winery at the same ranch.

Apple cider vinegar, five years old, at Weems'. It's the best.

L. Quartaroli has the lumber on the ground for the erection of a good substantial barn on the property he recently purchased opposite this office. He is also contemplating making some needed improvements to the old Vasquez property.

Mr. D. P. Dougherty, well known throughout Merced and Sonoma counties, W. V., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea, was attended by two physicians who gave him little if any relief, when a neighbor learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured him in less than twenty-four hours. Sold by R. G. Shoults.

Miss Ella Estes was up from San Francisco and spent Sunday with her parents.

Clark Gaines came up from the city last Saturday evening and will spend this week with home folks.

J. S. Young, who has been absent for the past few months in Lake county, returned home Wednesday.

Walter C. Nolan, Republican nominee for county auditor, was here Thursday, making himself acquainted with the voting public.

Mrs. Pearce, nee Guilfoyle, was taken to the Waldick Sanitarium at San Francisco, Monday, where she underwent an operation for a tumor on her side.

Sweet potatoes at Weems'.

"Sandy" Goess of Alvarado, was here Tuesday and Wednesday visiting with his brother, G. A. Goess. The visitor is with the Contra Costa Water company of Alameda county.

Mrs. Harry, (nee Minnie Stewart) spent a pleasant visit at the Tate home Sunday. Her home is now in Yountville and this is the first time she has visited the scenes of her school days in many years.

Potter's creamery butter at Weems'.

Wm. McGill, who formerly rented the Maxwell and Wilkinson places, was here from Willets the first of the week. He reports everything as being in a flourishing condition in his new home.

Another hot water well has been developed by Mr. Richards at his famous Agua Caliente springs. The well is 212 feet deep and supplies a continuous stream of water registering over 100 degrees. The new well is located between the bath house and the railroad station.

Monday, Frank L. Blackburn, Republican candidate for coroner and public administrator, was in the valley making the acquaintance of the voting population. He is well known in this vicinity by the old residents, having many times been employed as undertaker, which business he has been engaged in for the past 14 years.

His Life Saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"B. L. Byer, a well known cooper of this town, says he believes Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life last summer. He had been sick for a month with what the doctors called bilious dysentery, and could get nothing to do him any good until he tried this remedy. It gave him immediate relief," says B. T. Little, merchant, Hancock, Md. For sale by Shoults the Druggist.

HELD TO ANSWER IN THE SUPERIOR COURT.

LOUIS FOUTS MAKES NO DEFENSE.

Witnesses Show Defendant to be Aggressor Who Used Concealed Weapon.

The preliminary examination of Louis Fouts, on a charge to do bodily harm, was held before Judge Small Thursday afternoon. It was clearly shown that Fouts had used a sharp instrument of some kind which he kept concealed in a handkerchief in his hand. No one saw the knife or instrument at the time with which the cutting was done.

Nick Carrillo was the first witness examined and explained how the fight started in which Fouts was the aggressor. His statements were corroborated by five witnesses.

Dr. Rich was then called to the witness stand and described the cuts which he had dressed for Carrillo and stated that they were positively made with a sharp instrument, and the one below the jaw bone came dangerously near being fatal.

Constable Ohm testified to having arrested Fouts and on searching him found a small pocket knife.

The defendant made no plea, nor asked the witnesses any questions and had no counsel. The state was represented by Deputy District Attorney Weske, who asked that the defendant be bound over to answer before the Superior court. The court bound defendant over in a bond of \$500, which was not given, and the defendant was remanded to the county jail.

Doings of the University of California.

The new comet discovered by Astronomer C. D. Ferrine, of the University of California at the Lick Observatory, will probably become visible to the naked eye by November 23d. It has been proved that this comet revolves around the sun in 226.2 years.

The United States Bureau of Forestry has sent M. W. Mackie, senior in the College of Agriculture, into the high mountains north of Clear Lake, to investigate the forests, soil and land ownership, and to report on the advisability of establishing a new forest reserve, whose purpose would be to conserve irrigation supplies and to prevent floods.

A Remarkable Record

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substances and may be given as confidently to a baby as to an adult. For sale by Shoults.

Tuesday evening a case of battery was charged against Emill Brizard, an employe of the Hearst ranch. It appears that the accused man and some of his fellow-workmen had been drinking and succeeded in getting mixed up in a quarrel which terminated with the arrest of Brizard, who was brought before Judge Small and pleaded guilty to the charge. He was fined \$5, which he promptly paid and was released from custody.

Peter Sabatin, a French laborer from up the valley, came to town Tuesday evening, and after getting on the outside of too much wine, proceeded to undress himself in the street, and was arrested on a charge of indecent exposure. His trial was set for Wednesday evening, but owing to the non-appearance of Chas. Ohm, the prosecuting witness, the defendant was dismissed.

Fortune Favors a Texan

"Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennedale, Tex., "and soon felt like a new man." Infalible in stomach and liver troubles. Only 25c at Shoults' drug store.

THE REBEKAH BALL A GRAND SUCCESS.

A GRAND TIME HIGHLY APPRECIATED.

The Affair Yields Large Sum for a Noble Cause. The Music Unusually Good.

The ball given in Union Hall by the Rebekah's last Friday evening, was the greatest social and financial success attained in Sonoma for many months. Early in the evening the handsomely dressed terpsichoreans began to assemble and ere the hour for dancing arrived the hall was well filled with those anxious to participate.

The stage was beautifully decorated with green and pink oleanders, where were also placed a picture of the orphans' home, for whose benefit the ball was given, and a portrait of Mrs. Caroline Hoxett, who donated the site for that institution.

The music furnished was excellent, as was attested by the entire assemblage remaining until after the last dance, and was supplied by Mrs. Paul and son Roy and Mr. Williams, a cornetist from San Francisco.

The luncheon served was very dainty and much enjoyed by all present. As predicted, the Rebekahs did themselves credit in this matter as well as in their entertainment, which lasted until nearly 3 o'clock.

The ladies are to be congratulated on their flattering success, socially as well as financially. The sum of \$43.40 was cleared and will be given to the Rebekah Orphans' Home at Gilroy and used in caring for the many homeless children of that institution.

Miss Alice McNally is visiting Miss Graham at El Verano this week.

Ed. Steiger returned Tuesday evening from a short sojourn in San Francisco.

Mrs. Julia Wegner was in town Wednesday looking after her property interests.

G. H. Hotz will formally open his fall stock of millinery at his store Wednesday, Oct. 1st.

Weems, the ice man, has a large supply of ice on hand and is prepared for a warm spell.

Miss L. Rufus returned to Sonoma Tuesday evening after a pleasant trip to the metropolis.

Mrs. W. H. Hanger arrived from Petaluma Wednesday evening for a visit with her husband, the proprietor of the Racket Store.

Miss Ernestine Fisher accompanied by Mrs. Adolph Schenckberg and children spent Sunday visiting the family of A. Kerner.

Paul MacQuiddy has accepted a position with the California Northwestern railway company as fireman on a locomotive on the main line.

A rare treat is in store for all who attend the entertainment to be given Saturday evening by the young ladies booth of the Catholic Fair.

The dramatic comedy, which is to be presented by a number of talented young ladies of San Francisco, promises to afford much amusement Saturday evening. We predict a crowded house.

While attempting to pass a load of hay on a narrow road east of town Wednesday morning S. A. Ringstrom was thrown from his cart and luckily escaped uninjured. His horse succeeded in getting away from its driver and came into town at a lively pace without injuring the cart in the least.

A Boy's Wild Ride for Life

With family around expecting him to die, and a son riding for life, 18 miles to get Dr. King's New Discovery for consumption, coughs and colds, W. H. Brown of Leesville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, pneumonia, bronchitis, coughs, colds and grip prove its matchless merit for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Shoults' drug store.

Special Fair Days.

The board of Directors of the District Fair held a meeting in Santa Rosa last Saturday afternoon and made arrangements for the following special days:

Wednesday, October 1, Santa Rosa day.

Thursday, October 2, Southern Sonoma and Marin County day.

Friday, October 3, Northern Sonoma and Mendocino County.

Saturday, October 4, Elks' day.

President Overton was authorized to select an orator to deliver an address at the opening of the fair, Monday evening the 29th inst., and has selected Hon. A. B. Ware. Special excursions at low rates will be run to and from Santa Rosa on these special days.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by R. G. Shoults.

Weems has fine California Olive oil at greatly reduced prices.

"A True Mother's Friend."

The miracle of motherhood is often overshadowed by the misery of motherhood. The great functional changes which are incident to child bearing leave their mark for life on many a mother. Some women offer up their lives as a sacrifice on the altar of motherhood. A far greater number live on in ceaseless misery. Their strength fails, their beauty fades, they have no ambition and no enjoyment in life.

To every woman Doctor Pierce's Favorite Prescription offers escape from the pains and perils of motherhood. Taken during the period of waiting and anticipation this medicine strengthens the body, nourishes the nerves, and prepares the whole womanly system for the coming ordeal. The mind feels bright and buoyant. There is no anxiety, no dread, but in its place a happy anticipation of the baby's coming, which counts for the future happiness of the child unborn. The use of "Favorite Prescription" makes the baby's advent easy, and gives abundant vitality to nursing mothers. There is no alcohol in "Favorite Prescription," neither opium, cocaine or other narcotics. It is a purely vegetable medicine. Accept no substitute for "Favorite Prescription." There is nothing "just as good" for weak and sickly women.

Dr. Pierce's Favorite Prescription makes weak women strong, sick women well.

A Mother's Testimony

"I would like to express my gratitude for the benefit received from your wonderful medicine, 'Favorite Prescription,'" writes Mrs. H. C. Anderson, of South Britain, New Haven Co., Conn. (Box 33). "During the first month of pregnancy I could not keep anything on my stomach. Was so sick that I had to go to bed and stay for weeks. I tried different doctors, but with little benefit. I read about many being helped by using your medicine so I thought I would give it a trial. I began to take your 'Favorite Prescription' in November, and I had a nice little baby girl in February following. My baby weighed over eight pounds. I was only in hard labor about one hour and got along nicely during confinement; was up and dressed on the eighth day. I never had the doctor with me at all. My friends thought that I was sick a very short time. I think Dr. Pierce's Favorite Prescription is indeed a true mother's friend, for it helped me wonderfully."
